

The Next Generation of Charity Governance Workshop

Are you:

A young person, aged under 26, interested in being a trustee?

A current or past young trustee?

An employee or trustee of an organisation that is interested in recruiting young trustees or have young trustees on your board?

A trustee recruiter?

WE WANT TO HEAR FROM YOU

TOPIC OF DISCUSSION

We are looking to engage with young people and the charities that could or already are making the most of what young people have to offer in governance with a series of workshops. These workshops will begin to build a vision about what is possible in terms of building a movement of young trustees as well as dig deeper into understanding the challenges and opportunities of increasing the quantity and quality of young trustees on boards.
