Summary of 2021 feedback received on the Blagrave Trust from partners and applicants

We ask for feedback at four key stages in the grant-making journey in addition we received feedback on the wellbeing grant we introduced at the end of the year. This document includes:

- The End of the Grant Survey
- Monitoring the Grant Survey
- The Grant Offer Agreement Survey
- Rejected Outline Proposal Survey

In 2021, the number of partners completing the survey was lower than in previous years, the end of grant survey received **4 responses**, the monitoring grant survey received **5 responses**, the grant offer agreement survey received **26 responses** and finally the outline proposal survey received **13 responses**. As a result of the low response rate, we are introducing a new structure in 2022 to send our feedback surveys more consistently and regularly.

We have done a four-year comparison to reflect on the data and see where we have and can improve, and since 2018 the questions remain unchanged.

We were delighted that the feedback was overall very positive about our way of working. One thing stood out: partners consistently ask us to do more to share lessons and experiences among organisations working on similar issues. In response to this we are planning to spend more time this year convening and connecting partners and have built in time and resources to do this into our strategic business plan.
Partners were asked to rank their agreement with this statement on a 1 – 10 scale with the following statements:

Q1. The Blagrave Trust’s reporting requirements are simple and easy to comply with

Average response received was **10 out of 10** (4 responses)

Q2. How well does the Blagrave Trust understand your intended beneficiaries’ needs?

Average response received was **9 out of 10** (4 responses)
Q3. We understand what the Blagrave Trust does with the information we provide

Average response was **10 out of 10** (4 responses)

Q4. The Blagrave Trust explained when it expected to stop working with us

Average response was **10 out of 10** (4 responses)
Q5. Blagrave Trust staff are respectful, helpful and capable

Average response was 10 out of 10 (4 responses). Unchanged since 2018.

Q6. The Blagrave Trust does not make excessive demands on our time to support their work

Average response was 10 out of 10 (4 responses).
Q7. How likely is it that you would recommend the Blagrave Trust as a funder to another charity?

Average response was **10 out of 10** (4 responses). In 2018 we received 9 out of 10, in 2019 and 2020 we received 10 out of 10 which remains unchanged.

- Involve us in deciding how to monitor and report progress

**WELLBEING GRANT**

At Blagrave Trust we recognized how challenging the year has been for the charity sector, so we wanted to thank our partners for all their hard work in the run up to the festive season. At Christmas 2021, we offered a small grant of £400 to support the staff, trustees, and volunteers’ wellbeing. This grant was proposed by staff and trustees at Blagrave as a small token of our thanks and appreciation for all the hard work our partners are doing for young people during these challenging times.

Explanatory comments given by partners can be found in Appendix E
SUMMARY

At Blagrave, we have critically assessed the feedback received from the four key grant making surveys in 2021. The team discussed the feedback on how we can learn and improve for the years ahead.

Blagrave Trust’s philosophy of being transparent, trusting, and adaptive has really shown in the feedback this year; many of our partners feel supported, collaborative discussions, simple flexible application approach and transparent about consulting with young people.

One point that our partners would like Blagrave Trust to do more of is to share lessons and experiences between partners and this feedback has been consistent since 2018. To address this, Blagrave have relaunched a brand-new website with more clear and detailed information about our partners. A lot of our learning and experiences will be published and can be found on our website through our blog and learning tabs. This feedback has informed our strategic goal to offer more collaboration opportunities through convening, networking, and individual connections.

The biggest improvement we would like to make for 2022 is to increase our feedback response to 40%. We’ll like to see the impact of the website relaunch and to monitor the surveys more consistently and regularly.

Overall, Blagrave is committed to consistently adapting our work and evolving in response to what we learn.
Appendix A

- I love working with Blagrave, it is an absolute joy. There is really nothing negative I can say. Great experience.

Appendix B

- Monitoring and reporting is a very individual process for each organisation. We have tried and tested many structures and have eventually come up with what we think suits us best. But this process may not suit another organisation. Hope this makes sense! :)
- Blagrave have one of the best and most flexible monitoring and reporting processes we have ever come across. Being able to submit data, evidence etc in an existing format (rather than in a 'trust specific' way) is so helpful. We ticked the visit us more often box, not because you don't visit enough but because being able to have a face to face relationship with funders is one of the things we most highly value. We really appreciated this especially in pre-application stages and more face to face contact could only really be a good thing! On a similar note, in ticking 'respond and discuss our reports' we're not saying that you don't respond... You do and in quite a comprehensive way however we'll always welcome more opportunities for discussion
- We appreciate the flexible and practical approach to reporting that the Blagrave Trust take; Tessa is always responsive and takes real interest in our work.
- Core funding is very much appreciated, as it enables us to fund the areas of our work most in need.
Appendix C

- We feel very supported by the Blagrave Trust and we love the fact that young people were consulted in the decision making process.
- Blagrave Trust was very helpful in keeping in touch with us to let us know what stage in the process they were at and also with speaking to us about how to help our organization grow in the right way.
- Tessa is always extremely helpful – Thank you
- so good to know it involved young people in the decision process
- We are forever grateful for the continued support we receive from the Blagrave Trust.
- The relational support and the ongoing conversation with the Regional Partnerships Manager was really valuable and I hope continues.
- Tessa was very supportive in our application during the whole process.
- It’s always a pleasure to work with The Blagrave Trust. I feel that they are a funder who genuinely understands how charities operate and so make the process of application and partnership really easy. Tessa is very helpful to work with and takes such a genuine interest in our work. It’s really encouraging for all of our staff and we were absolutely delighted to receive notice of this funding and of The Blagrave Trusts support for a further 3 years.
- Tessa was exceptional with the help, guidance, and support to enable us to do a successful application.
- We found the application process very easy and a refreshing change to some. We were late to find out about the grant and completed the application in just a few days. The forms made this easy to do.
- The process and levels of support were excellent. For us, the timescales are a little restrictive but we were well aware of them when applying so will work to them. if we could have started in January and run for 6 months it may have given us a little bit more preparation time.
- The application process felt collaborative and the discussions facilitated good thinking and progress around key ideas. We find the Blagrave Trust team to be very supportive and great to work with!
• From making the initial contact the whole process was very easy. The support from Tessa the Regional Partnerships Manager was excellent. As a small local Charity, the grant will make a huge difference to what we want to achieve.

• The process of applying for and being awarded funding from Blagrave was completely distinct to any other we have come across before as an organisation, and refreshingly two-way. We felt that over the course of 1-2 years of ongoing conversations with Tessa, we really got to know Blagrave, and that a conscious effort was being made by Blagrave to really understand our services and ways of working.

• Staff capacity is often the limiting factor for developing new or existing work. The maximum grant per year doesn’t cover a full-time staff member so does limit what can be done/is difficult for organisations who can’t commit to matching the funding.

• Overall we have found working with the Blagrave Trust to be incredibly empowering and it really has supported us to grow and develop our listening work.

• Overall, we were impressed by the application process, both in terms of your deep focus on organisational learning and in light of the practical and straightforward application form. We felt really well supported throughout the application process and had the opportunity to ask questions and receive timely advice.

Appendix D

• We never got passed the emailing for advice stage but were told that our work did not really fit with Blagrave.

• The reason given for us being unsuccessful was clear, however we feel that we do offer the criteria set out but we also offer our services to people outside the criteria too.

• I understood the trust’s reasons for not taking our application further.

• It was a lovely warm note explaining how we didn’t meet the criteria. I was grateful for the feedback - thank you.

• It was clear as to the priorities and respectful of the work we had put into the bid.
• I was impressed that Tessa offered individual feedback unprompted. This is not always the case with potential funders. I would have liked a little more detail, but understand the overall reasoning and we’re grateful for your response.

• The feedback was clear, helpful and appreciated – thank you. We appreciate the desire that our application be led by young people, that is certainly our desire as well. The difficulty is that in order to gather young people from across our community, from different schools and representative of different organisations takes resources (mainly: a coordinator role) that are currently unavailable to us. There is a concrete plan to increase youth voice across the city including an exciting new partnership of organisations but currently no capacity to carry out such an initiative. It would be a great benefit to young people in our community if there was funding available to launch a large scale youth voice project. We all each have our own individual ways of doing this within our organisations but to join these together takes resources currently unavailable. We really appreciate you considering our application and hope that this feedback is helpful.

• Although I am an experienced bid writer. I was not clear only youth led bids will be successful. Perhaps it should be the first thing you say.

• We support long term, relationship based work with young people who are not otherwise well supported, and who are facing significant barriers in their lives. We are supporting Teenagers and Young adults with cancer, this is a more than significant barrier and I don’t understand why we are rejected.

• The explanation was clear, but a bit surprising. I made an initial enquiry to check eligibility but was not told then that we would not be considered due to our annual income. Your commitments and general processes seem great.

• Would have been nice to have the chance to discuss any concerns about our approach.

• Tessa was brilliant – while we were ultimately unsuccessful, her feedback and advice regarding other funds that might be
appropriate were so useful, and very much appreciated. This level of support is excellent, going above and beyond what was expected, and should be highlighted as best practice in the sector. Well done and thank you Tessa!

Appendix E

• This is a very kind and welcome gesture. Thank you so much!
• We would want to utilise this grant to pay for our staff Xmas meal and to contribute to the cost of our Team First Aid training which is booked for January 2022. Alternatively, the team did have a short mindfulness session in November and it was very well received by the staff, Trustee’s and volunteers, so we could ask for another session in January.

• We are so grateful to have the support of such a caring funder - we’re blown away by this kindness. Our plan is to put this funding towards an affordable Employee Assistance Programme, offering free counselling, legal advice, health portals and medical information lines, critical incident advice and support, manager support and counselling. We were seriously considering this before, but your offer has prompted us to commit.
• Thank you so much from our team at XXX. This is very thoughtful and generous. We shall certainly put this to good use in bringing everyone together to celebrate and reflect on the amazing work the team have achieved over the last year.

We really appreciate the support of Blagrave. Thank you.
• We would put this money towards renewing our Investing in Volunteers award to reflect the great work we do and how are volunteers have supported our young people’s mental health before, during and throughout the pandemic,

• Thank you so much. We'll use this to good effect to support the team.
• This is such a wonderful idea, thank you! I plan to put it to our team as to how it is spent... in keeping with XXX's horizontal way of working. Whether that is on training or a team away day for example. A lovely way to say thank you to our hard working and committed team. Kind regards
